Student Guide

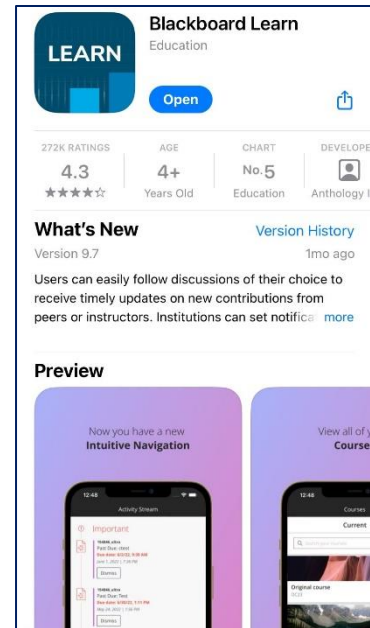

Blackboard Mobile

## What is Blackboard Mobile:

It is an application available on the store for mobile devices, Whether Android or iOS. It provides students with access to The Blackboard e-learning system, and through it, they can Follow up on their courses and access virtual classrooms.

## Download the app and start using it:

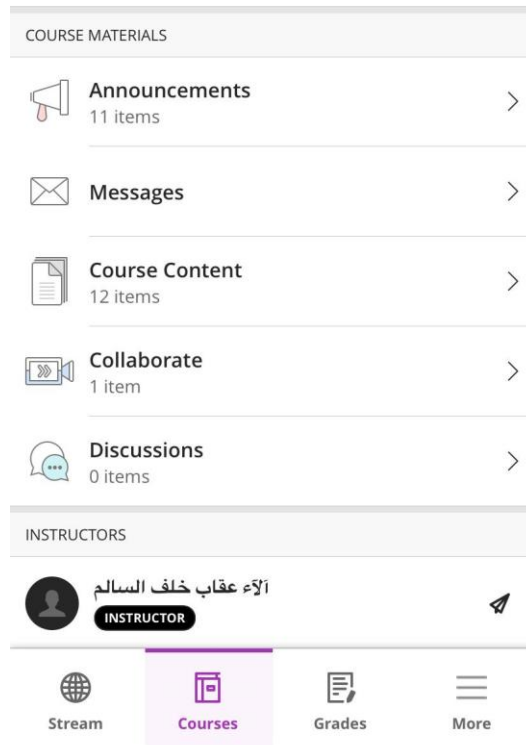

1. To download the application, type in the search box **"Blackboard"** and then click on Download
2. When you run the application for the first time, enter the following text: **"al jouf university"** in the institution name field, then enter the login information for the Blackboard system:

**Username: University Number**

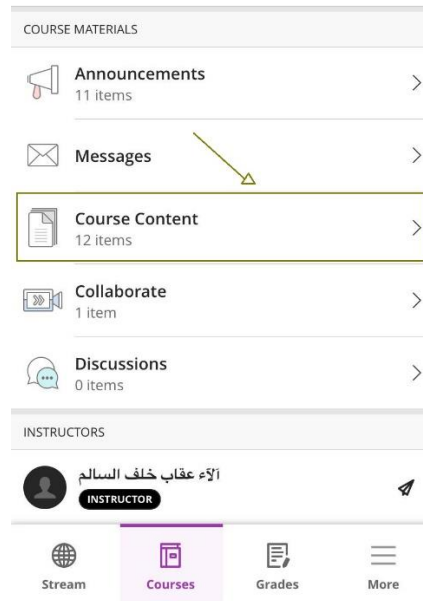

**Password: ID Number**

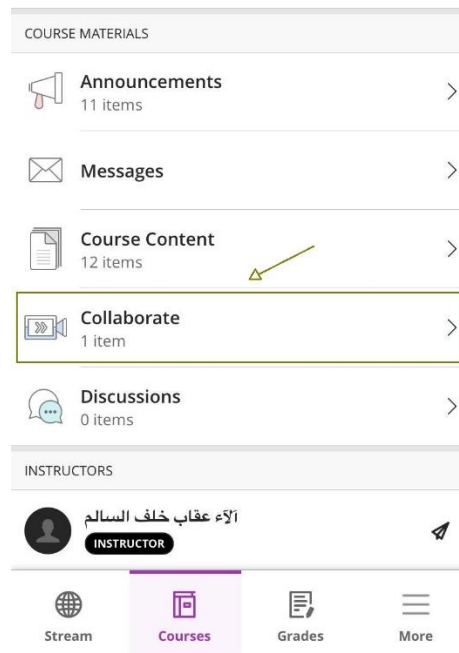

After logging in, the “**Activity Stream**” page will appear directly, which contains the latest updates that occurred within the courses (announcements, assignments, course content and grades).

To view the courses, click on the course icon.

To view the course content, click on the course name and then the course content.

To access virtual classroom sessions, click on the course name and then Collaborate.
