Program Schedule	Morning	Language of Instruction	English

### Program Overview

The Department of Software Engineering offers a pioneering academic program designed to prepare distinguished professionals in the field of software engineering. The program focuses on equipping students with the knowledge and skills necessary to design and develop innovative software systems that meet the needs of both local and global markets. It features advanced curricula aligned with the latest technological developments and academic quality standards, while providing an interactive learning environment that integrates theory with practice. The department also seeks to promote scientific research, encourage innovation, and provide community services and technical consultations to support sustainable development in line with Saudi Vision 2030.
